

TECHNICAL DATA SHEET

ELECTRA

Electrical Safety Helmet

COLOR:

STANDARD: ANSI Z89.1-2014, Type-1, Class- E, G & C

INTRODUCTION:

- Udyogi Electra offers the highest electrical protection and is suitable for **high-voltage environments** like power plants, electrical substations, and utility maintenance. It is designed to protect against head injury of wearers by containing the 6-point textile suspension with easy ratchet fit adjustment, Y-type chin strap and non-ventilated shell.
- Designed to meet ANSI Z89.1-2014, Type-1, Class- E, G & C standard, available in white & blue color with the ability of logo customization.

FEATURES:

- ANSI Class E, G & C Certified (qualified at 20,000 voltages for 3 minutes).
- Shell made of HDPE is resistant to high level impact.
- 6-point textile suspension with ratchet fit adjustment allows for quick and easy adjustments to ensure a secure and comfortable fit.
- High quality, removable sweatband keeps more hygienic.
- Smooth ratchet is designed to adjust different head size.
- Rim around the shell, drains rain water.
- Y-shape holds the shell-better stability, universal fit.
- Compatible with head & face PPE accessories in the universal slot.

Product Specifications:

Model: ELECTRA (Electrical Safety Helmet)
Construction: HDPE (High Density Polyethylene)
Suspension: Premium textile pp
Headband: LDPE (Low Density Polyethylene)
Sweatband: Foam on brushed cloth
Chin strap type: Y-type PP chinstrap
Ventilation: Non-ventilated
Weight: 420 grams
Accessories slot size: 30 mm.
Circumference of Headband: 520 mm – 630 mm.
Chin Strap width: 19 mm.
Color: White, Red

APPLICATION:

- Electra offers the highest electrical protection and is suitable for high-voltage environments like power plants, electrical substations, and utility maintenance.
- The shell provides excellent protection against falling objects which ensures the wearer's safety in case of an accident. Best Used in industries where there is a hazard of falling objects.

INDUSTRY:

These helmets are utilized for their protective and practical features in various industries such as:

- Power, Transmission & distribution
- Mining
- Oil & Gas
- Construction & Civil
- Metal
- Cement
- Renewal energy
- Telecom
- Chemical & fertilizer

USAGE AND STORAGE:

- Place the helmet squarely on head, then turn the ratchet knob to the right, position the chin strap and turn the ratchet knob to the left to remove the helmet.
- Can be stored and transported in their original cartons at ambient temperature (0°C to + 30°C) for 3 years.
