2-in-1 Emergency Eyewash Faucet Station for Laboratory Safety

Product Introduction:

The **Sysbel Desktop Faucet Emergency Eyewash Station** is an essential safety device designed for quick and efficient eye and face washing during emergencies. This unit easily attaches to conventional faucets, offering a reliable eyewash solution with the added benefit of dual functionality. The eyewash station features a user-friendly switch, allowing for a seamless transition between eyewash and handwashing modes.

Features:

- **360-Degree Vertical Rotation:** The faucet can rotate 360 degrees vertically, allowing flexible positioning and ease of use during emergencies.
- **2-in-1 Emergency Eyewash and Hand Wash:** Provides dual functionality, allowing easy switching between eyewash and handwash modes with a built-in control valve body and button.
- **Large Push Plate in Yellow:** A large, high-visibility yellow push plate is included for easy activation, ensuring quick response in emergency situations.
- **Efficient Eyewash Function:** Once activated, water is automatically sprayed from the eyewash nozzle, ensuring effective rinsing.
- **Double-Layer Filter:** The eyewash nozzle has an integrated double-layer filter that removes water impurities, safeguarding the user's eyes.
- **Slow Pressure Flow:** The nozzle uses a slow pressure principle to produce a foamy water column, reducing the risk of eye injury from excessive water flow.
- **Dust Cover Protection:** The nozzle is equipped with a dust cover that opens automatically when water flows, preventing contamination. The cover can be reset after use.
- **Compact and User-Friendly Design:** The ergonomic and space-efficient design allows for easy installation onto a standard faucet, making it ideal for various work environments.

Benefits:

- **Quick Emergency Response:** Provides fast access to eyewash, minimizing the time to flush eyes after exposure to harmful substances.
- **Convenient Operation:** Easy switching between eyewash and handwashing improves safety.
- **Hygienic & Safe:** Dust cover protects the nozzle; double-layer filter ensures clean water for eye washing.
- **Space-Saving Design:** Compact and ideal for desktop use in laboratories, workshops, and industrial spaces.
- **Enhanced First Aid Response:** Allows quick action and initial relief while waiting for medical assistance.
- **Preventing Further Injury:** Immediate access reduces the risk of harmful substances spreading to other body parts.
- **Minimizing Pain and Discomfort:** Alleviates pain and discomfort caused by irritants in the eyes.
- **Simple Operation:** The lever push plate design ensures ease of activation, allowing personnel to quickly initiate water flow during emergencies.

Product Specifications:

Model:	WG7013
Flow Speed:	≥ 11.4 L/min
Water Inlet Size:	G1/2 Internal Thread
Product Dimensions:	15 × 15 × 20 cm (L x W x H)
Package Dimensions:	24 × 24 × 16 cm (L x W x H)
Main Material:	Made from thickened copper with electroplating for enhanced durability and corrosion resistance.

TECHNICAL DATA SHEET

Applications & Industries:

- Eyewash stations are crucial in workplaces where there is a risk of harmful substances coming into contact with the eyes or face. In such applications, emergency eyewash stations are necessary to quickly clean and flush the eyes and face to prevent injury or harm. These stations are essential in industries such as chemical manufacturing, pharmaceuticals, healthcare, automotive, food processing, construction, laboratories, R&D, and research institutions.

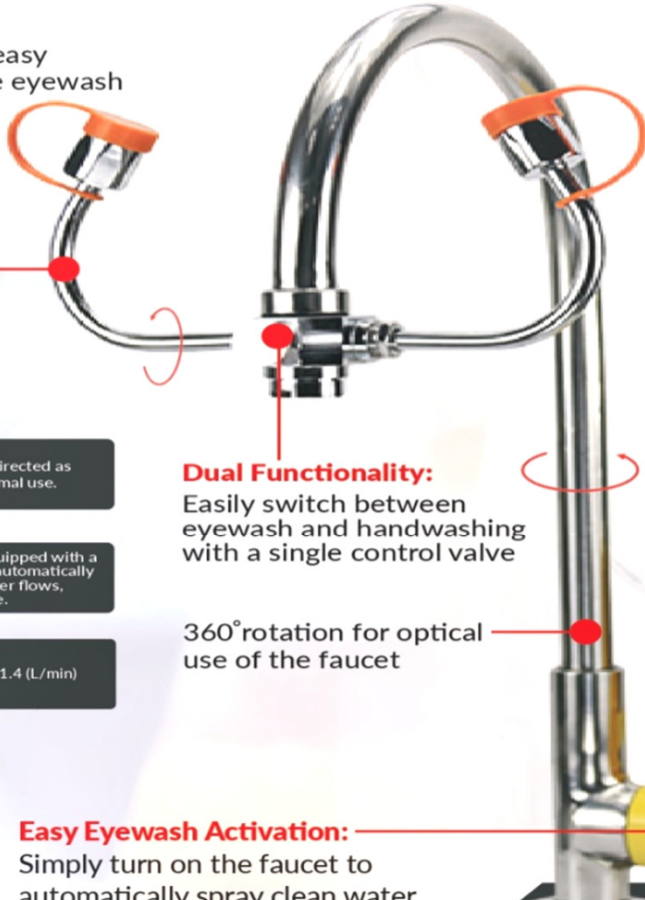

WG7013

2-in-1 Emergency Eye Wash Faucet Station

360° rotation for easy positioning of the eyewash use of the faucet

Made from thickened copper with electroplating,

Product Dimensions:
(LxWxH/cm) 15x15x20

ADJUSTABLE DIRECTION
Nozzle can be directed as needed for optimal use.

DUST COVER
The nozzle is equipped with a dust cover that automatically opens when water flows, ensuring hygiene.

FLOW SPEED
Flow speed : ≥11.4 (L/min)

Dual Functionality:
Easily switch between eyewash and handwashing with a single control valve

360° rotation for optical use of the faucet

Easy Eyewash Activation:
Simply turn on the faucet to automatically spray clean water from the eyewash nozzle.
