AG-H5LPV (FH2001006)

ARM GUARD CUT 5 WITH FINGER LOOP & VELCRO

Product Introduction:

- The AG-H5LPV (FH2001006) is a cut-resistant protective arm guard designed with enhanced user-fit features including a finger loop and Velcro strap for optimal stability. Made from 13-gauge HPPE composite yarn, it is tested as per EN 388:2016+A1:2018 – 4343C, making it ideal for high-risk environments involving sharp edges or abrasive surfaces.

Key Features:

- High Cut-Resistant Liner:** Made from 13G HPPE composite yarn for superior protection.
- Finger Loop Design:** Ensures full sleeve extension and wrist security during motion.
- Velcro Fastening on Arm:** Adjustable and secure fit on upper arm to prevent slipping
- Salt & Pepper Colour:** Standard speckled industrial look for visibility and conformity.
- Flexible & Comfortable:** Lightweight design suitable for long work shifts

Performance – EN 388:2016

EN 388:2016+A1:2018

Test	Performance Level
Abrasion Resistance	4
Cut Resistance (Coup Test)	3
Tear Resistance	4
Puncture Resistance	3
Cut Resistance (ISO 13997)	C

Standard: 4343C

Length: 18 Inches (Standard)
Size: Universal Fit
Color: Salt & Pepper (Grey speckled)
Packing: 1 Pair/Polybag, 120 Pairs/Carton

Industry :

These Gloves are utilized for their protective and practical features in various industries such as

Automotive
Manufacturing

Glass Handling

Sharp Edges

Tools Assembly &
General Fabrication

Udyogi

Usage Instructions:

- Slide finger through loop for proper wrist retention
- Adjust Velcro strap for a secure arm hold
- Not suitable for flame or chemical resistance
- Inspect for cuts, frays or wear before every use

Storage Instructions:

- Store below 40°C in dry, clean space
- Avoid direct sunlight and corrosive environments
- 3-year shelf life under proper conditions
