Full Body Harness

FULL BODY SAFETY HARNESS WITH ENERGY ABSORBING LANYARD AND SCAFFOLDING HOOK

STANDARD: IS 3521(Part 1): 2021, IS 3521(Part 2): 2021, IS 3521(Part 5): 2021

Product Introduction:

- Full Body Harness is a premium safety gear engineered to deliver unmatched protection at height. Designed for superior comfort and performance, it evenly distributes fall arrest forces across the body and offers secure attachment points for lanyards, lifelines, and other fall.
- Protection equipment—ensuring workers stay safe, confident, and productive in challenging environments.

Features:

- The harness comes with one dorsal D-ring for fall arrest.
- Available with adjustable straps at chest and thighs.
- In built Fall Indicator to facilitate easy inspection in case a fall has occurred ever.
- Attached with double high strength light weight Energy Absorbing lanyard with scaffolding hook.
- Built in dual colour Reflective liner type webbing for easy Orientation.
- Special Feature:** This model is available with Polypropylene rope lanyard (Colour: White).

Product Specifications:

Model	: ECO4.
Webbing Material	: Synthetic Fibre (Polyester).
Webbing Width	: 44 +/-1 mm.
Webbing Breaking Strength	: 23 kN .
Safe Working Load Capacity	: 100 kg.
Stitching Thread Material	: High tenacity virgin multifilament polyester.
Stitch Thread Colour	: White.
Metal Components	: High quality alloy steel, zinc plated, free from any sharp edges.
Harness Colour	: Black and Green with dual reflective lines.
Lanyard Materials	: Polyamide/Braided.
Weight	: 811 gm Approx. (Only Harness).

ECO4 Full Body Harness

Benefits:

- **Light Weight Design:** High strength & Light weight material makes it more user friendly.
- **Retro Reflecting Webbing:** Reflective webbing provide high visibility in low light area.
- **360° Support:** Distributes impact forces evenly to minimize injury in the event of a fall.
- **Durable Construction:** Made from high-strength webbing and corrosion-resistant edge free hardware for reliability in harsh environments.
- **Compliance:** Meets relevant safety standards.

Applications:

- **Construction & Scaffolding:** Provides reliable safety during the construction period of infrastructure and scaffolding tasks.
- **Fall Arrest Systems:** Protects workers from falls during elevated work.
- **Rescue & Evacuation:** Essential for retrieval and emergency scenarios.
- **Tower Climbing:** Enables safe climbing for utility and energy sectors.

Industries:

The harnesses are essential for creating a temporary anchorage point for maintaining a safe and efficient working environment in any manufacturing, construction, utility related industries as follow.

Pharmaceutical

Chemical

Automobile

Food & Breweries

Marine

Transportation

Steel

General
Manufacturing

Oil & Gas

Power

Construction

Heavy
Manufacturing

Agriculture

FMCG

Safety Information:

- Full body harness should be use with appropriate fall arrest device with energy absorption facility.
- Users of fall-protection equipment should not exceed 100 kg of total mass (including tools and equipment).

Usage Instruction:

- Inspect before use.
- Ensure all buckles, straps, and D-rings are securely fastened.
- Follow manufacturer instructions for donning, adjustment, and maintenance.
- Replace harness immediately if it has been involved in a fall or shows signs of wear.
- Only trained and authorized personnel should use fall protection harnesses.
- Never modify the harness in any way.

Storage:

- Always store the harness in a dry, well-ventilated area. Avoid keeping it in direct sunlight, high heat, or extreme temperatures, as this can weaken materials or cause fading. For added protection, store and transport the harness in its original packaging to prevent from contamination or damage.
